Antaras Group

Letter from the Founder

Anna Stopnevich, Founder of Antaras Group

Dear Clients and Partners,

Throughout my career in corporate finance, banking, and entrepreneurship, I've witnessed firsthand how family wealth and business legacies can be both powerful and fragile. I founded Antaras Group with a single goal: to support families in navigating complexity with clarity, confidence, and purpose - preserving not just capital, but continuity, values, and vision across generations.

At Antaras, we combine structured financial expertise with a deeply human approach. Whether we are advising on succession, restructuring a business, or preparing the next generation to lead, we take the long view - one that embraces innovation, responsibility, and resilience. We understand that every family and every enterprise is unique, and we respond with tailored solutions grounded in trust and independence.
Our mission is to empower families not only to preserve their wealth, but to pass on something far more enduring: leadership, harmony, and a clear sense of shared direction.

Warm regards,

Anna Stopnevich
Founder & Managing Partner, Antaras Group
